

PARTH PRODUCTION

Simple Website & Admin Guide

Written in easy English for anyone.

No technical words. Just what each page and button does.

This guide has 2 parts:

- 1) Main Website - what customers see and click
- 2) Admin Panel - what your team uses to update the site

Website: parthproduction.in

Admin: parthproduction.in/admin/login

Studio: Surat, Gujarat

1) Main Website Menus

These are the pages customers open on your website.

Home

This is the first page when someone opens your website. It shows your brand, event videos, stage photos, and booking buttons. It helps customers feel your work quickly and then book you.

Services

This page explains your event systems like Weddings, Concerts, Festivals, Corporate, and Road Shows. Each service shows what you provide and has a Book button to message you on WhatsApp.

Gallery

This page shows real photos from your past events. Customers can browse pictures and open them larger. It helps build trust by showing real productions.

About

This page tells your company story, journey, and founder details. It helps customers understand who Parth Production is and why they should trust your team.

Contact

This page gives all ways to reach you: WhatsApp, phone numbers, email, address, and map. Customers use this page when they are ready to talk or visit.

2) Main Website Buttons

These are the important action buttons customers click.

Book / Book now / Book a production

Opens WhatsApp chat with your business number. Customer can send a booking message directly to your team.

Book (on a service)

Same as Book, but already related to that service (example: Wedding or Concert). Customer can ask about that event type quickly.

WhatsApp / Start WhatsApp chat

Opens WhatsApp so the customer can talk to your team instantly. This is your main booking method on the website.

Call / Phone

Starts a phone call to your business number. Useful for customers who prefer talking instead of chatting.

Email

Opens the email app with your business email ready. Customer can send a written enquiry.

Map / Studio / Directions

Opens Google Maps to your Surat studio address. Helps customers find your location easily.

Explore systems / View services

Takes the customer to the Services page to see all event options in detail.

3) Admin Panel (Private Team Area)

Only your team can open this. Customers cannot see it. Use it to update website content.

Login

Go to admin login, enter username and password, then open the control panel. Without login, nobody can change the website.

Gallery

Here you manage photos for the Gallery page. You can upload new photos, delete old ones, change category, and reorder pictures.

Videos

Here you manage homepage videos. You can upload short videos, remove videos, and change their order.

Services

Here you change the main cover picture for each service (Weddings, Concerts, Festivals, Corporate, Road Shows).

Stage Gallery

Here you manage the stage photo carousel on the homepage. You can change photos, titles, and order.

Site Settings

Here you update business contact details: email, WhatsApp number, second phone, and address. These details appear on Contact page, footer, and Book buttons.

Save Changes

Very important. After editing, click Save Changes. Only then your updates go live on the public website.

Visit Live Site

Opens the public website in a new tab so you can check what customers are seeing after your updates.

Logout

Closes your admin access on that device. Always logout on shared computers.

4) Simple Daily Flow

1. Login to Admin
2. Open the section you want to update
3. Make your changes (photos, videos, numbers, etc.)
4. Click Save Changes
5. Click Visit Live Site and check
6. Logout when finished

5) Quick Map

If you want to change something, use this simple map.

Want to change	Go to
Gallery photos	Admin -> Gallery
Homepage videos	Admin -> Videos
Services cover pictures	Admin -> Services
Homepage stage photos	Admin -> Stage Gallery
Phone / WhatsApp / Email / Address	Admin -> Site Settings
Admin username or password	Admin -> Site Settings

6) Important Reminder

If you edit something but do not click Save Changes, customers will not see it.

Always Save, then check Visit Live Site.
