

PARTH PRODUCTION MAIN SITE

(www.parthproduction.in)

Page Loader

Page Loader: A loading screen with the Parth Production brand that plays while the homepage cinematic video gets ready, so the site opens smoothly.

Home Page

Home Page: Displays a looping full-bleed cinematic background video, brand headline, Book and Services buttons, show videos, craft strip, and Stage Gallery highlights.

Services Page

Services Page: Lists all the production setups you offer (Concerts, Weddings, Festivals, Corporate, Road Shows) with cover photos and direct WhatsApp book buttons.

Gallery Page

Gallery Page: Showcases past event photographs in a spotlight and image ribbon, which clients can open fullscreen to view your work.

About Page

About Page: Tells the Parth Production story, journey timeline, founder details, and why clients choose your studio.

Contact Page

Contact Page: Shows WhatsApp, phone, email, and studio address, along with a Google Map pointing directly to your Surat studio.

PARTH PRODUCTION ADMIN
(www.parthproduction.in/admin)

Gallery Tab

Gallery Tab: Upload new event photos, assign them categories (Weddings, Festivals, Concerts, Road Shows, Corporate), reorder, or delete old photos. Changes reflect on the public Gallery page.

Videos Tab

Videos Tab: Add, reorder, or remove vertical show videos (up to 6) for the homepage video showcase. Changes update the scrollable video section on your Home page.

Services Tab

Services Tab: Upload or replace the main display photo for each service block. Changes reflect immediately on the public Services page of the website.

Stage Gallery Tab

Stage Gallery Tab: Update photos for the homepage Stage Gallery curve (maximum of 9 images). Changes update the animated stage showcase on the Home page.

Site Settings

Site Settings: Edit phone, WhatsApp, email, and address used across the live website, plus SMTP email settings and admin login credentials.

SMTP

SMTP Config: Edit Host, Port, Username, and Password settings for outgoing email dispatch. Enables password reset emails and admin email tools to work successfully.

Save Changes

Save Changes: Saves your staged edits (photos, videos, settings) to the live website so customers see the updates.

Visit Live Site

Visit Live Site: Opens the public website in a new tab so you can check what customers see after saving.

Logout

Logout: Closes your admin session safely and returns you to the admin login screen.
